HOW will you use the information you learned?

Participants overall mentioned they will:

- More effective collaboration with and communication among teams
- Build trust and relationship, both within the team and between the team and families
- Support and involve in the assessment process
- Reflect on and improving assessment practices
- Establish and maintain clear team norms, ongoing professional development to advance teamwork and individual skills
- Self-reflect and focus on continual skill development and improvement

I'm going [to] recommend the training to all of the contracted providers and SCs because teams are not just for initial assessments but are also in providing ongoing services.

Starting a discussion on our team norms at our weekly meeting tomorrow :)
